| Model | Cat. no. |
|---|---|
| **LaboPol-30** | 06336127 |

| Control unit | Cat. no. |
|---|---|
| **LaboUI** | 06206901 |

Robust control panel for manual preparation for fast preparation 24/7.

| | |
|---|---|
| **LaboForce-50 specimen mover** | 06356127 |

Robust semi-automatic specimen mover for preparation
of 1-4 specimens for fast, reliable specimen preparation 24/7.

| **LaboForce-100 specimen mover** | 06366127 |
|---|---|

Robust semi-automatic specimen mover for preparation
of 1-6 specimens for fast, reliable specimen preparation 24/7.

| **LaboForce-Mi specimen mover** | 06386130 |
|---|---|

Robust low speed semi-automatic specimen mover for preparation
of 1 - 8 mineralogical specimens for  reliable specimen preparation 24/7.

| Preparation disc with cone | Cat. no. |
|---|---|
| **MD-Disc, 250 mm dia.** | 06086402 |
| Magnetic fixation discs enable you to change the preparation surface fast and easy. It furthermore ensures less resilience when preparing your specimens. Only for use with our MD surfaces. With cone for easy replacement. | |
| **MD-Disc, 300 mm dia.** | 06086403 |
| Magnetic fixation discs enable you to change the preparation surface fast and easy. It furthermore ensures less resilience when preparing your specimens. Only for use with our MD surfaces. With cone for easy replacement. | |
| **Aluminum disc, 250 mm dia.** | 06086405 |
| For use when preparing your specimens with OP and DP surfaces and other self-adhesive grinding and polishing consumables. With cone for easy replacement. | |
| **Aluminum disc, 300 mm dia.** | 06086406 |
| For use when preparing your specimens with OP and DP surfaces and other self-adhesive grinding and polishing consumables. With cone for easy replacement. | |
| **Wet grinding disc, 230 mm dia.*** | 06206932 |
| The wet grinding disc is for fixation of SiC paper.<br>* Wet grinding disc 230 mm dia. cannot be used in combination with with LaboForce-50. | |
| **Wet grinding disc, 250 mm dia.** | 06206918 |
| The wet grinding disc is for fixation of SiC paper. | |
| **Wet grinding disc, 300 mm dia.** | 06206919 |
| The wet grinding disc is for fixation of SiC paper. | |
| **Cast iron disc. 300 mm dia.** | 06206917 |
| Concentrically grooved, cone-type disc for lapping mineralogical specimens. Made of special SiC-resistant cast iron alloy. | |

* Wet grinding disc 230 mm dia. cannot be used in combination with with LaboForce-50

| Splash guard** | Cat. no. |
|---|---|
| **For manual preparation on a 250 mm dia. MD-Disc/Aliminum disc** | 06206921 |
| For manual preparation with 250 mm discs.<br>LaboPol comes standard with 300 mm splash guard for manual preparation, with small gap to prevent stuck specimens. | |
| **For semi-automatic preparation on a 250 mm dia. MD-Disc/Aluminum disc** | 06206929 |
| For use with ø305 mm Wet grinding disc and for semi-automatic preparation with 250 mm discs.<br>LaboPol comes standard with guard for manual preparation, with small gap to prevent stuck specimens. | |
| **For semi-automatic preparation on a 300 mm dia. MD-Disc/Aluminum/Cast iron disc** | 06206925 |
| For semi-automatic preparation with 300 mm discs.<br>LaboPol comes standard with guard for manual preparation, with small gap to prevent stuck specimens. | |
| **For Wet grinding disc 230 mm dia.** | 06206927 |
| For use with ø230 mm Wet grinding disc.<br>LaboPol comes standard with guard for manual preparation, with small gap to prevent stuck specimens. | |
| **For Wet grinding disc 250 mm dia.** | 06206928 |
| For use with ø250 mm Wet grinding disc.<br>LaboPol comes standard with guard for manual preparation, with small gap to prevent stuck specimens. | |
| **For Wet grinding disc 300 mm dia.** | 06206929 |
| For use with ø305 mm Wet grinding disc and for semi-automatic preparation with 250 mm discs.<br>LaboPol comes standard with guard for manual preparation, with small gap to prevent stuck specimens. | |
| **Lid for preparation disc** | 06206913 |
| For protection of preparation disc during non-use. | |
| **Disposable bowl liner 5 pcs.** | 49900062 |
| For easy cleaning of your bowl. | |

** LaboPol-30 comes standard with a splash guard for manual preparation on a 300 mm dia. MD-Disc/Aluminum disc, with a small gap to precent stuck specimens

| Recirculation system | | Cat. no. |
|---|---|---|
| **Cooling System 3** | | |
| A recirculation cooling unit must be connected for cost-efficient water utilization and to collect removed abrasives.<br>A complete system contains a tank, pump and filter bag. | | |
| | **1 x 100 V / 50 Hz** | 05766516 |
| | **1 x 220-240 V / 50 Hz** | 05766522 |
| | **1 x 100-120 V / 60 Hz** | 05766523 |
| | **1 x 220-240 V / 60 Hz** | 05766524 |
| | **1 x 100-120 V / 50-60 Hz CSA** | 05766616 |
| **Disposable liners. 5 pcs.** | | 49900042 |
| For collecting waste material in 50 l tank. | | |

| Storage cabinet | Cat. no. |
|---|---|
| **MD-Concert** | 05306101 |
| Suitable for storage of 9 MD preparation surfaces in 300 mm (12”), 250 mm (10”) or 200 mm (8”) dia. | |
