

Environmental Policy

“Ensuring Certainty through a commitment to excellence”

Struers is the strongest partner in the materialographic testing industry based on our commitment and deep insight in the field of materialography. Through our product and technology leadership, we provide complete and integrated solutions based on a full range of leading edge products that are easy to use and maintain. Our unparalleled supply-chain and geographical reach delivers products, highly qualified after-sales service and application support where and when our customers need it.

We hereby ensure the following for customers:

- ☑ Health, safety and environmental sustainable processes
- ☑ Valid, accurate and reproduceable results
- ☑ Fastest possible process lead time
- ☑ Maximum solution efficiency through optimal solution up-time, delivery time and footprint

We are committed to:

- ☑ Fully satisfy or exceed customer's expectations and requirements
- ☑ Conduct environmental mapping and action plans to continuously reduce our environmental impact.
- ☑ Continuously develop our product portfolio towards a more environmentally sustainable and safer usage
- ☑ Continuously improving our Environmental Management System in compliance with ISO 14001
- ☑ Comply with all applicable statutory requirements, laws and regulations
