

10S35 Cut-off wheel

- For cutting of soft, non-ferrous metals (HV 30 -300)
- Silicon carbide abrasives
- Resin bond

20S35 Cut-off wheel

- For cutting of very ductile metals (HV 70 -400)
- Silicon carbide abrasives
- Resin bond

49A35 Cut-off wheel

- Universal for soft to medium hard ferrous metals (HV100 -500)
- Aluminum oxide abrasives
- Resin bond
- Fiber reinforced

30A35 Cut-off wheel

- For cutting of soft ferrous metals (HV 80 -400)
- Aluminum oxide abrasives
- Resin bond

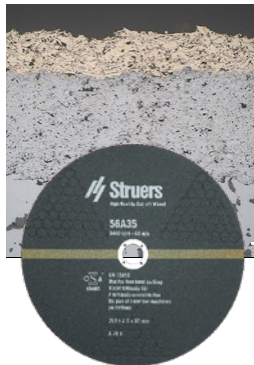

40A35 Cut-off wheel

- For cutting of medium soft ferrous metals (<HV 300)
- Aluminum oxide
- Aluminum oxide abrasives
- Resin bond

50A35 Cut-off wheel

- For cutting of medium hard ferrous metals (HV 200 -500) and stainless steel
- Aluminum oxide abrasives
- Resin bond

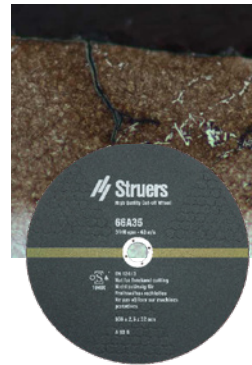

56A35 Cut-off wheel

- For cutting of medium hard ferrous metals (HV 200 -500) and stainless steel
- Aluminum oxide abrasives
- Resin bond, hexagonal pattern

60A35 Cut-off wheel

- For cutting of hard and very hard ferrous metals (HV 300 -800)
- Aluminum oxide abrasives
- Resin bond

66A35 Cut-off wheel

- For cutting of hard and very hard ferrous metals (HV 300 -800)
- Aluminum oxide abrasives
- Resin bond, hexagonal pattern

B0C35 Cut-off wheel

- For cutting of extremely hard ferrous metals (HV 500 -1400)
- CBN abrasives, high concentration
- Resin bond

B0D35 Cut-off wheel

- For cutting of sintered carbides and ceramics (> HV 800)
- Diamond abrasives
- Resin bond

M0D35 Cut-off wheel

- For cutting of ceramics (> HV 800) and minerals.
- Diamond abrasives, high concentration
- Metal bond

E0D36 Cut-off wheel

- For cutting of mounted specimens and components containing resin or plastic
- Diamond abrasives
- Electroplated

Cooling additives

- Additive for recirculation water for cutting and grinding.
- Unitclean for cleaning of Recirculation Cooling Units to stop attack of micro-organisms

Filter tube

- Single-use filter tube for static recirculation cooling system
- For use with 100 l, 150 l and 200 l tanks
