

STRUERS WORKSHOP REPAIR SERVICE

Inspection and repair of equipment at a local Struers service organization workshop.

You need trouble-free operation and quality up to specifications to meet your quality assurance deadlines. High productivity means lower operational unit costs. If you experience an issue that causes valuable downtime, you need fast repairs. Sometimes, however, these can involve transportation to a specialist repair facility.

What you get

- ✓ Immediate service upon arrival at the Struers repair facility to minimize downtime
- ✓ Restored specimen preparation or testing according to equipment speci

How you benefit

- ✓ Minimized repair costs
- ✓ Improved equipment utilization
- ✓ Extended equipment lifetime

Struers Single Services

Single services focus on individual tasks that usually become necessary because of an issue affecting quality, efficiency or uptime. A single service typically resolves an isolated issue. If you use single maintenance services regularly, we recommend you consider a Prevent, Protect or Perform service plan instead.

You can book one or more single services at any time.

Struers offers the following single services:

- Struers workshop repair service • Installation & basic training • Remote diagnostic connection
- Application assessment • Overhaul services • Inspection services • Calibration – Struers certified
- Calibration – Accredited • On-site repair service • Preventive maintenance service • Practical training
- Operational maintenance training

Why choose Struers?

- ✓ Nearly 80 years' experience solving challenges like yours
- ✓ Worldwide network with Struers technical service engineers
- ✓ Global network of materialographic application specialists
