OPTIMIZATION ASSESSMENT HELPS YOU GET THE MOST OUT OF YOUR EQUIPMENT

As quality demands keep increasing, predictable preparation quality is becoming more and more important. Older equipment, in particular, requires regular attention to make sure it still performs according to specifications. Equipment inspection and expert assessment of utilization are a reliable way to help you get the most out of your equipment. Struers' Optimization Assessment package includes equipment inspection and application assessment of equipment, consumables, methods and processes.

WHAT YOU GET

The Optimization Assessment package includes:

- Technical inspection of the equipment by an expert Struers service engineer
- Identification of repair and overhaul needs
- Application assessment of how the equipment is used, conducted by a Struers application specialist
- Workflows
- Method(s)
- Evaluation of optimal usage of consumables

You will receive practical tips as well as application assessment results in an application assessment report with findings and recommendations.

HOW YOU BENEFIT

Knowledge is power

You'll get a sound foundation upon which to decide whether you should implement potential optimizations regarding:

- Equipment use and lifetime
- Materialographic processes

Learn how to optimize equipment use, processes and methods to optimize reproducibility and sample quality with minimum use of consumables. Save process time and potential rework time and

consumables. Ensure you can trust in your results every time.

Pre-empt potential maintenance and performance issues

A status report on your full set of equipment enables you to initiate proper maintenance and repairs at the right time to get the most out of each piece of equipment. The report can also advise you on when future capital investments could be needed.

WHY CHOOSE STRUERS?

- Nearly 80 years' experience solving challenges like yours.
- Worldwide network with Struers technical service engineers.
- Global network of materialographic application specialists
- More than 92% of Struers customers globally are satisfied or very satisfied with Struers.*
